Bernardston Master Plan
Implementation Committee

Town Meeting
May 11, 2017

What is a master plan and why is it important?
A master plan provides a vision for the town’s collective vision for twenty years into the future (2035).

The sixty-four week process involved:
• Formation of a Steering Committee from different sectors including farmers, landowners, town departments, private business and town planners;
• Four public input meetings; and
• Two community surveys.

Goals
• Preserve our rural character;
• Promote a vibrant historic center village; and
• Foster sustainable economic development.

The Bernardston Master Plan Implementation Committee is charged with creating a 5 year plan for each of the 4 parts of the recommendations (Chapter 10):
• Education and Outreach
• Zoning and Policy
• Municipal Infrastructure and Services
• Strengthen Community Connections

The full Master plan can be viewed and downloaded at http://townofbernardston.org/index.php/8-uncategorised/53-master-plan-2016

Meetings are the second Tuesday at the town hall. The public is welcome.
